The consolidated and non-consolidated business performance forecasts given in this document are based on assumptions, prospects, and future business plans, currently available on the date this document was published. Actual results may differ from these forecasts for a variety of reasons. For other matters relating to the forecasts, please refer to "1. Summary of Operating Results, Financial Position, and Cash Flow".

<sup>\*</sup> Explanations and other special notes concerning the appropriate use of business performance forecasts

#### 1. Summary of Operating Results, Financial Position, and Cash Flow

#### (1) Consolidated operating results

During the fiscal year ended October 31, 2018, the Japanese economy maintained its gradual recovery as corporate earnings and employment conditions continued to improve and consumer spending also picked up; however, attention must also be paid to the situation overseas, such as the direction of US trade policies. In this environment, the Park24 Group companies (the "Group") expanded existing services and created new services while building a foundation for overseas parking businesses acquired in the previous year with the aim of achieving a comfortable motorized society. While natural disasters such as Typhoon Jebi, which struck Japan in 2018, caused some damage to the Group's parking facilities, vehicles, and other properties, the impact has been limited.

As a result, the Group posted net sales of 298,517 million yen (up 28.1% year on year), operating profit of 22,539 million yen (up 9.9% year on year), recurring profit of 22,532 million yen (up 11.1% year on year), and profit attributable to owners of parent of 13,851 million yen (up 3.1% year on year) in the fiscal year under review.

Results by business segment are as follows:

#### Parking Business

The Group expanded its businesses by developing Times parking, B-Times, a parking site matching and reservation service, and other services through community-based, attentive marketing activities and consulting marketing for large companies. The Group has also been working to boost sales of Times Business Card, which allows corporate customers to pay in arrears for the Company's services (parking, car rental, and car sharing) with the same card, and increase the available means of paying parking fees such as electronic money, in addition to the Times Pay payment service that was launched last year as part of its project to support and attract customers to the businesses of stores around Times parking sites in an effort to build network-based communities and enhance convenience for customers.

As a result, the numbers of Times parking facilities and parking spaces operated at the end of the fiscal year under review were 17,597, up 4.5% from the end of the previous fiscal year, and 580,751, up 5.3%, respectively. The total number of parking sites operated, including monthly parking and facility management services, rose 4.0% from the end of the previous fiscal year, to 18,981, and the total number of parking spaces operated increased 6.0%, to 724,448.

Net sales in this segment (including intersegment sales) stood at 157,006 million yen (up 5.8% year on year), and operating profit amounted to 26,906 million yen (up 6.1% year on year).

#### Parking Business Overseas

Last year, the Company added overseas parking business operators to its Group and has been working to build its business foundation including the governance of the Company in each region. In June this year, the Company undertook the additional purchase of the remaining 20% shares in Secure Parking Pty. Ltd., operating the parking business in Australia, New Zealand, and the U.K., Secure Parking Singapore Pte. Ltd., operating the parking business in Singapore, and Secure Parking Corporation Sdn. Bhd., operating the parking business in

Malaysia, to make them its wholly owned subsidiaries, following the Company's successful stabilization of the business of these companies after the initial acquisition and adequate learning of the business situation in each of these countries. From now on, the Company will work to combine business expertise and achieve synergy with its subsidiaries in Japan and overseas, including National Car Parks Limited, which operates the parking business in the U.K., and accelerate the expansion of parking site networks and services to create further business synergy and build a stronger business foundation.

As a result, the numbers of overseas parking sites and parking spaces operated at the end of the fiscal year under review were 2,457, up 11.4% from the end of the previous fiscal year, and 647,411, up 18.3%, respectively, and the total numbers of parking sites and parking spaces operated worldwide were 21,438, up 4.8% from the end of the previous fiscal year, and 1,371,859, up 11.4%, respectively.

While sales in this segment (including intersegment sales) increased 188.5% year on year, to 68,290 million yen, the operating result was a loss of 879 million yen (as opposed to operating profit of 115 million yen for the previous fiscal year), mainly due to amortization of goodwill.

#### Mobility Business

In the rental car segment, the Group is developing the infrastructure for achieving travel via optimal means, whether by rental cars or car sharing, that suit the purposes of vehicle use, and one example is to strengthen the "Pitto Go Delivery" rent-a-car delivery service using cars equipped with in-vehicle devices. In the car sharing service segment, the Group continued to aggressively develop stations from the previous fiscal year and worked to expand services for corporate clients. In addition, the Group has committed to creating an environment where people can move without stress through the placement of vehicles in tourist spots and participation in social experiments in individual locales. As a result, the number of stations at the end of the fiscal year under review was 11,311 and the number of vehicles distributed was 23,431 units (up 12.4% and 17.0%, respectively, from the end of the previous fiscal year). The number of car sharing members exceeded one million in July and rose 21.6% from the end of the previous fiscal year, to 1,099,126.

As a result, the total number of vehicles in the Mobility Business segment in the fiscal year under review rose 11.4% from the end of the previous fiscal year, to 54,593. Net sales in the segment (including intersegment sales) reached 73,505 million yen (up 20.4% year on year), and operating profit rose to 6,858 million yen (up 34.1% year on year).

#### (2) Overview of financial position during the fiscal year under review

Total assets at the end of the fiscal year under review amounted to 283,171 million yen, an increase of 26,830 million yen from the end of the previous fiscal year. This is primarily a result of an increase in cash and deposits of 11,929 million yen, an increase in machinery, equipment, and vehicles (net) of 8,201 million yen, due largely to the purchase of vehicles, and growth in buildings and structures (net) of 3,117 million yen.

Total liabilities increased 10,787 million yen from the end of the previous fiscal year, to 188,324 million yen. Major contributing factors included increases in bonds with subscription rights to shares of 35,000 million yen due to the issuance of convertible bond-type bonds with subscription rights to shares and long-term loans payable of 24,150 million yen, which was not offset by decreases in short-term loans payable of 33,578 million

yen and 19,970 million yen due to the conversion of bonds with subscription rights to shares.

Net assets increased 16,042 million yen, to 94,847 million yen, as a result of increases of 13,851 million yen in retained earnings due to the posting of a profit attributable to owners of parent, 10,204 million yen in capital stock due to the conversion of bonds with subscription rights to shares, and 4,039 million yen in capital surplus due to an increase through the conversion of bonds with subscription rights to shares and a decrease through the additional purchase of consolidated subsidiaries, which was not offset by a decrease of 10,270 million yen due to dividend payments from retained earnings.

#### (3) Overview of cash flow during the fiscal year under review

Cash and cash equivalents at the end of the fiscal year under review amounted to 29,785 million yen, an increase of 12,010 million yen from the end of the previous fiscal year.

The status of cash flow by category at the end of the fiscal year under review was as follows:

#### (Cash flow from operating activities)

Net cash provided by operating activities increased 15,186 million yen year on year, to 53,476 million yen. This primarily reflected the total of depreciation, amortization of goodwill, and income before income taxes and minority interests of 52,404 million yen and income taxes paid of 6,863 million yen.

#### (Cash flow from investing activities)

Net cash used in investing activities was 43,095 million yen (cash outflow decreased 29,673 million yen year on year). This was chiefly attributable to the expenditure of 37,882 million yen for the acquisition of property, plant, and equipment associated with the opening of Times parking facilities and the purchase of vehicles for service, and purchase of long-term prepaid expenses of 3,673 million yen.

#### (Cash flow from financing activities)

Net cash used in financing activities was 1,754 million yen (down 30,815 million yen year on year). This was largely a result of dividend payments of 10,275 million yen, repayment of long-term loans payable of 37,919 million yen, and expenditure of 6,352 million yen due to the acquisition of shares in subsidiaries, which offset increases of 35,000 million yen in bonds with subscription rights to shares due to the issuance of convertible bond-type bonds with subscription rights to shares and 27,000 million yen in long-term loans payable.

(Changes in cash flow-related indicators)

|                                     | FY Ended Oct.<br>2018 | FY Ended Oct.<br>2017 | FY Ended Oct.<br>2016 |
|-------------------------------------|-----------------------|-----------------------|-----------------------|
| Equity ratio                        | 34.1%                 | 30.7%                 | 48.7%                 |
| Market value equity ratio           | 162.2%                | 149.8%                | 310.7%                |
| Number of years for debt redemption | 2.3 years             | 3.2 years             | 1.2 years             |
| Interest coverage ratio             | 65.8 times            | 117.4 times           | 583.1 times           |

Note: Shareholders' equity ratio: shareholders' equity divided by total assets

Market value equity ratio: market capitalization divided by total assets

Number of years for debt redemption: interest-bearing debts divided by cash flow from operating activities

Interest coverage ratio: cash flow from operating activities divided by interest payment

- \* All of the indicators are calculated based on consolidated financial data.
- \* Market capitalization is calculated by multiplying the closing stock price at the end of the fiscal year by the number of shares outstanding (after subtracting treasury shares).
- \* The cash flow from operating activities used in the calculations is the cash flow from operating activities in the consolidated statement of cash flow.
- \* Interest-bearing debt includes all interest-bearing liabilities that are posted on the consolidated balance sheet.

The interest payment represents the amount of interest expenses paid presented in the consolidated statement of cash flow.

#### (4) Outlook for the future

While the overall economy is expected to remain on track toward moderate recovery with continued improvement in the employment and income situation, uncertainties about the overseas economy, fluctuations in the financial and capital markets, and other factors may imply a risk of a decline in the global economy.

In this environment, the Group will continue to expand its parking sites through community-based, attentive marketing activities and corporate sales in its domestic parking business and develop more parking sites that will contribute to the Group's earnings. In the overseas parking business, the Group will continue to work on building a system for strengthening its corporate governance, improving service quality, and creating business synergy. In addition, the Group will continue to expand the scale of its Mobility Business while promoting the use of the services by corporate customers and boosting sales to raise its earning power and service levels.

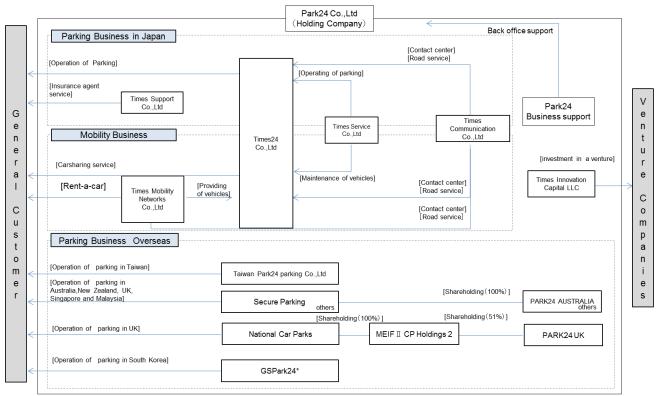

Through such efforts, the Group expects that the number of Times parking spaces in operation will be 622,000 and that the number of Times Car vehicles will be 60,500 (including 26,500 vehicles for the car

sharing service) at the end of October 2019. In the fiscal year ending October 31, 2019, the Group projects an increase in sales based on net sales of 320,000 million yen, operating profit of 22,600 million yen, recurring profit of 23,000 million yen,; however, profit attributable to owners of parent is expected to decrease due to expenses for head office relocation and change of brands, resulting in 12,800 million yen.

#### 2. Status of the PARK24 Group

The Group (the Company and its affiliates) consists of the Company, 93 consolidated subsidiaries and one affiliate. The Group manages and operates parking facilities, rents and trades vehicles, and develops related businesses.

The business lines of the Group are as follows.

\*: :Affiliated company, accounted for by the equity method

Parking Business in Japan:

The Group provides pay-by-the-hour and pay-by-the-month parking facilities services under sublease agreements for renting idle land lots from landowners and administration trustee agreements for managing parking facilities on behalf of their owners as well as by using parking facilities owned by the Group. The Group also manages and operates incidental facilities of parking facilities.

Parking Business Overseas:

The Group provides pay-by-the-hour and pay-by-the-month parking facilities services under sublease agreements and trustee agreements for managing parking facilities in a total of 7 countries comprising Taiwan, South Korea, Australia, New Zealand, the United Kingdom, Singapore and Malaysia.

Mobility Business:

The Group provides rent-a-car service at its rent-a-car premises nationwide and operates and seeks to expand car-sharing service to promote new methods of using cars. It also provides road assistance service for handling car accidents and trouble.

#### 3. Management Policy

#### (1) Basic management policy

The basic policy of the Park24 Group is to play a role in the creation of a new motoring society that is safe, secure, and comfortable under the slogan of "People, Cars, Communities, and (Times)." Based on this policy, we will create new value in the motoring society by expanding our network of parking facilities and mobility businesses and harness our management resources.

The Group will respond to the trust and expectations of all stakeholders by sustaining overall growth and fulfilling its corporate social responsibility through the activities described above.

#### (2) Targeted management indices

The Group believes that its main business challenge is achieving and ensuring strong growth and profitability. It places the upmost emphasis on the rate of growth in recurring profit and strives to maintain double-digit sustainable growth.

#### (3) Medium-term business strategies

In the business environment surrounding the Group, motorized societies around the world are experiencing major changes, for instance with autonomous driving, variations in vehicle fuel and "from ownership to usage." Looking to the future of the mobility society, the Group will further expand and improve the networks of parking facilities, mobility, members and communities(destinations) and create a mobility society that can respond to future needs in Japan and globally.

In the Parking Business, the Group will build parking facilities networks that are safe, secure and convenient in response to these new needs of the new eras. In the Mobility Business, the Group will strive to fulfill users' expectations by providing services backed by continuous increases in the number of vehicles, the integration of the rent-a-car service and car sharing services. In the service that links the Parking Business and the Mobility Business for members, we will work to increase the number of members who enhance the relevant networks. At the same time, we will upgrade our software to ensure that members enjoy convenience in our services. In addition, we will contribute to convenience of users and customers of the Group's parking facilities and mobility services as well as shops by seeking to promote networking of the customers' targeted destination towns. Meanwhile, with an eye on the creation of a new mobility society, we will use the data on parking facilities, vehicles, members and towns that are accumulated in the Group's resources in the development of safe and highly convenient new services.

In the overseas business, by bringing into the Group Secure Parking and National Car Parks in the fiscal year ended October 2017, the Group began building a foundation for providing new forms of mobility around the world. By combining the parking facilities networks of both companies and the Group's knowhow and management capabilities cultivated in Japan with the provision of services outside Japan that are equally safe, secure and convenient, we will seek to strengthen and expand our business foundations in the existing business areas in which we operate.

The Park24 Group will grow to become the world's No. 1 in terms of services as well as earnings as a corporate group that provides mobility services on a global scale.

#### (4) Issues to be addressed

The issues to be addressed to realize a comfortable automotive society and ensure the sustainable growth of the Group are detailed below.

(i) Building networks of services in the new mobility society

We aim to build not only highly convenient, environmentally conscious parking facilities and mobility service networks but also service networks that can respond to the new mobility society encompassing further progress in sharing economy, the evolution of autonomous vehicles, etc.

#### (ii) Evolving the Times brand

In addition to strengthening services on the hardware side, such as facilities in the Times hourly parking business, the Times Car RENTAL rent-a-car service, and the Times Car PLUS car sharing service, the Group will evolve and expand its services on the software side, including Times Club, which provides money-saving, convenient membership services for drivers without any initial or annual membership fees. In this way, we will evolve the Times brand into a service brand that is indispensable to people, vehicles and towns.

#### (iii) Expanding the network of Times parking facilities

We will expand the networks of safe, secure and convenient parking facilities that form the Group's operating base, including Standard Times (ST) that use idle land lots, which offer exceptional convenience for drivers, Times Partner Service (TPS) that uses parking facilities attached to commercial facilities, which exhibits significant room for market growth, and B-Times, a parking site matching and reservation service.

#### (iv) Expansion of the mobility market

The Company will expand its Times Car rent-a-car and car sharing services to help expand the "mobility market" in Japan, mitigate inconveniences in traveling, and develop an environment that ensures safe, secure, and convenient driving.

#### (v) Deepening and expanding parking services overseas

Through the combination of the parking facilities networks of Secure Parking (Australia, New Zealand, the United Kingdom, Malaysia and Singapore) and National Car Parks (the United Kingdom) and the Group's knowhow and management capabilities cultivated in Japan and the provision of services outside Japan that are equally safe, secure and convenient, we will seek to strengthen and expand our business foundations in the existing business areas in which we operate.

#### (vi) Promoting the development of high added value in the services we offer

We will develop highly new and secure services by responding to the diversification of various payment operations including electronic money, highly convenient services, for instance by developing web pages and applications customers can use easily, and by introducing cars compatible with information and communication systems as well as data obtained from such use.

(vii) Improved efficiency through the optimum allocation and integration of management resources

Through the optimum allocation and integration of management resources including people, goods, money and information, we will strive to boost efficiency and productivity while bolstering the financial standing of the Group as a whole.

#### 4. Basic concept of the selection of accounting standards

The Group intends to prepare consolidated financial statements under the Japanese standards in the immediate future, taking into consideration the period comparability of consolidated financial statements and comparability with other companies.

The Group plans to respond appropriately to the application of the international accounting standards, taking into account the situation in Japan and overseas, among other factors.

## 5. Consolidated Financial Statements

#### (5) Notes to Consolidated Financial Statements

(Note on going concern assumptions)

Not applicable

(Material matters as base in preparation of consolidated financial statements)

#### 1.Scope of Consolidation

Number of consolidated subsidiaries: 93

Times24 Co., Ltd.

Times Service Co., Ltd.

Times Communication Co., Ltd.

Times Mobility Networks Co., Ltd.

Times Support Co., Ltd.

Times Innovation Capital LLC.

Park24 Business Support Co., Ltd.

Taiwan Park24 Parking Co., Ltd. (Taiwan)

TFI Co.,Ltd.

Park24 AUSTRALIA Pty Ltd

Park24 SINGAPORE Pte. Ltd.

Park24 MALAYSIA Sdn. Bhd.

Periman Pty. Ltd.

Auspark Holdings Pty. Ltd

Secure Parking Pty Ltd

Secure Parking Singapore Pte. Ltd.

Secure Parking Corporation Sdn. Bhd.

Park24 UK Limited

MEIF II CP Holdings 2 Limited

National Car Parks Limited

Other consolidated subsidiaries: 73

TPF 1 Limited, a consolidated subsidiary, has been excluded from the scope of consolidation in the current fiscal year, because it ceased to exist as the result of an absorption-type merger with the Company as the surviving company.

TPF 3 Limited and Times Rescue Co., Ltd., consolidated subsidiaries, have been excluded from the scope of consolidation, because they ceased to exist as the result of an absorption-type merger with Times Communication Co., Ltd., a consolidated subsidiary of the Company, as the surviving company.

There is no non-consolidated subsidiary.

There is no non-consolidated subsidiary because two companies, which were non-consolidated subsidiaries in the previous fiscal year, ceased to exist as a result of an absorption-type merger with Times Mobility Networks Co., Ltd., a consolidated subsidiary of the Company, as the surviving company.

#### 2. Number of affiliated equity method companies: 1

GS Park24 Co., Ltd. (South Korea)

Two companies and three companies, which were equity method non-consolidated subsidiaries and equity method affiliated companies, respectively in the previous fiscal year, have been excluded from the scope of equity method because they ceased to exist as the result of an absorption-type merger with Times Mobility Networks Co., Ltd., a consolidated subsidiary of the Company, as the surviving company.

For companies accounted for using the equity method, financial statements based on the provisional settlement of accounts made on the date of consolidated settlement of accounts are used.

#### 3. Matters related to the closing date etc. of the consolidated subsidiaries

The consolidated subsidiaries whose account settlement dates differ from the consolidated settlement date are as follows.

| Company Name   | day of settlement of accounts |
|--|-------------------------------|
| TFI Co.,Ltd  | March 31 *1                   |
| Park24 SINGAPORE Pte. Ltd.                                 | March 31 *2                   |
| Secure Parking Singapore Pte. Ltd.                         | March 31 *2                   |
| Taiwan Park24 Parking Co., Ltd. (Taiwan)                   | September 30 *3               |
| Park24 AUSTRALIA Pty Ltd                                   | June 30 *2                    |
| Periman Pty. Ltd.  | June 30 *2                    |
| Auspark Holdings Pty. Ltd                                  | December 31 *2                |
| Secure Parking Pty Ltd and its 6 subsidiaries              | June 30 *2                    |
| Park24 UK Limited  | September 30 *3               |
| MEIF II CP Holdings 2 Limited                              | September 30 *3               |
| MEIF II CP Holdings 3 Limited and its subsidaries 64       | September 30 *3               |
| EMPARK UK Limited  | December 31 *2                |
| Park24 MALAYSIA Sdn. Bhd.                                  | December 31 *2                |
| Secure Parking Corporation Sdn. Bhd. and its subsidaries 2 | December 31 *2                |

- \* 1 The financial statements prepared on the basis of a provisional closing of accounts, which was in compliance with the standard settlement of accounts, as of the consolidated balance sheet date are used in preparing the consolidated financial statements.
- \*2 The financial statements prepared on the basis of a provisional closing of accounts, which was in compliance with the standard settlement of accounts, as of September 30, 2018 are used in preparing the consolidated financial statements. The necessary adjustments are made on consolidation for material transactions that occurred between September 30, 2018 and the consolidated balance sheet date.
- \*3 The financial statements prepared as of the end of the fiscal years of these consolidated subsidiaries are used, and necessary adjustments are made on consolidation for material transactions that occurred between the end of the fiscal years of these consolidated subsidiaries and the consolidated balance sheet date.

#### 4. Matters related to the accounting standards

- (1) Important appraisal standards and appraisal method for assets
- A. Short-term investment securities
  - (a) Other securities

Securities with a market price

We adopt the market value method based on market prices on the closing date of the consolidated accounting period. (Variances from the valuation at term end are all included directly in capital; costs of products sold during the term are calculated using the moving average method.)

Securities without a market price:

We adopt the cost method based on the moving average method.

- B. Inventories
  - (a)Merchandise

The cost method from the individual method (Balance sheet values are written down in accordance with falls in profitability.)

(b)Supplies

The last purchase method (Balance sheet values are written down in accordance with falls in profitability.)

- (2) Important method of depreciation of fixed assets
- A. Property, plant and equipment
  - (a) Property, plant and equipment other than leased assets

We adopt the fixed rate method. However, we adopt the straight line method for buildings (excluding equipment attached to buildings)acquired on and after April 1, 1998. and the overseas consolidated subsidiaries mainly use the straight-line method.

Major useful lives:

Buildings: 6 to 50 years Structures: 10 to 45 years

#### (b) Leased assets

Leased assets relating to finance lease transactions without the transfer of ownership

We adopt the straight line method. The lease period is set to durable years, and the residual value is set to zero.

#### B. Intangible assets

We adopt the fixed amount method. However, for software used by the Company, we adopt the fixed amount method based on the usable period within the Company (five years)

The straight-line method is used.

Major useful lives are as follows.

Software: Five years

Contract-related intangible assets: Two to 25 years

#### C. Long-term prepaid expenses

We adopt primarily the fixed amount method.

#### (3) Important standards for appropriation of allowances

#### A. Allowance for doubtful accounts

To prepare for losses incurred by defaults on accounts receivable, etc., given the loan loss ratio for general credits and the individual collectability for specific credits such as doubtful debts, etc., we post the estimated uncollectible amount

#### B. Provision for bonuses

The amount expected to be paid as bonuses is posted for the payment of bonuses

#### C. Provision for directors' bonuses

The amount expected to be paid as directors' bonuses is posted for the payment of directors' bonuses.

#### (4) Accounting method for retirement benefits

#### A. Accounting method of attributing expected benefit to periods

As a method of attributing expected benefits to periods before the end of the fiscal year under review, the straight-line basis is used to calculate retirement benefit obligations.

#### B. Accounting method for actuarial gains and losses

Actuarial gains and losses are amortized using the straight-line method over a certain period (five years) within the average remaining working lives of the employees at the time of occurrence from the following fiscal year.

#### C. Use of a simple method at small companies etc.

As a method for calculating net defined benefit liability and retirement benefit expenses, certain consolidated subsidiaries employ a simple method where the amount payable for voluntary retirement associated with retirement benefits at the end of the fiscal year is deemed retirement benefit obligations.

## (5) Standard for translation of significant foreign-currency-denominated assets or liabilities into Japanese yen

Foreign-currency-denominated money claims and liabilities are translated into Japanese yen at the spot exchange rates in effect as of the consolidated balance sheet date, and the foreign exchange differences are

scored as gains/losses. Meanwhile, the assets and liabilities of overseas subsidiaries, etc. are translated into Japanese yen at the spot exchange rates in effect as of the account settlement dates, and earnings and costs are converted into Japanese yen using the average market price during the period, and the translation difference is accounted for by including the amounts in the total valuation and translation adjustments account and non-controlling interests in net assets.

#### (6) Amortization Method and Period of Goodwill

Goodwill is equally amortized over the period of its effect

#### (7) Important hedge accounting method

#### A. Hedge accounting method

Deferred hedge accounting is used. To hedge of the risk of exchange rate fluctuations, designation accounting (furiate-shori) is applied if the requirements for the designation accounting are met. For interest rate swaps, special treatment is applied in cases where the requirements for the special treatment are met.B. Hedging instruments and hedge items

Hedging instruments · · · Interest rate swaps, currency swaps

Hedge items  $\cdot$  · · Borrowings, interest rates of borrowings

#### C. Hedging policy

To avoid the risk of interest rate and exchange rate fluctuations of borrowings, interest rate and currency swaps are used. In addition, to avoid the risk of interest rate fluctuations, interest rate swaps are used.

#### D. Hedging effectiveness evaluation method

The effectiveness of hedging is assessed by the correlation between the change in the aggregated amount of cash flow of the hedging instruments and the change in the aggregated amount of cash flow of the hedged items. The effectiveness evaluation is omitted for interest rate swaps to which special treatment may be applied.

#### (8) The scope of Funds reported on the consolidated cash flow statement

Cash and cash equivalents in the consolidated statements of cash flows are cash on hand, deposits that can be withdrawn at any time, and easily convertible into cash and consists of short-term investments with original maturities of three months or less from the acquisition date, which are subject to insignificant risk of changes in value.

#### (9)Other important matters for production of the consolidated financial statements

Accounting treatment of consumption tax

We adopt the net of tax method for consumption tax.

#### (Changes in accounting policies)

Associated with the availability of application of the "Practical Solution on Transactions Granting Employees and Others Stock Acquisition Rights, which Involve Considerations, with Vesting Conditions" (ASBJ PITF No. 36 on January 12, 2018; hereinafter referred to as "PITF No. 36") after the date of publication, the Company has applied PITF No. 36 after the date of publication to account for transactions granting employees and others stock acquisition rights, which involve considerations, with vesting conditions in compliance with the "Accounting Standard for Share-based Payment" (ASBJ Statement No. 8 on December 27, 2005), among others.

However, PITF No. 36 is applied in accordance with transitional handling provided for in Paragraph 10-(3) of PITF No. 36, and the accounting treatment adopted in the past continues to be applied to transactions that granted employees and others stock acquisition rights, which involve considerations, with vesting conditions before the date of application of PITF No. 36.

4 The land for business purposes is revalued, and the resulting variance is posted in net assets under the Act on Revaluation of Land (No. 34 promulgated on March 31, 1998) and the Law to Amend the Act on Revaluation of Land (promulgated on March 31, 1999).

#### · Method of revaluation

The value of land is based on the price calculated according to the method determined by the Director General of the Tax Administration Agency and announced for determining land prices that form the basis for calculating the taxable value of land value tax pursuant to Article 16 of the Land Value Tax Law (Land No. 69 of 1991) stipulated in Article 2, Item 4 of the Order for Enforcement on the Act on Revaluation of Land (Government Order No. 119 promulgated on March 31, 1998). Reasonable adjustments, including price adjustments by depth, are made to the value.

· Date of revaluation: October 31, 2000

(Business combinations)

I Business combinations through acquisition

Fixation of provisional accounting treatment for business combinations

While the Company conducted provisional accounting treatment for business combination with MEIF II CP Holdings 2 Limited made on August 3, 2017 in the previous fiscal year, it has been fixed in the current fiscal year.

Associated with the fixation of provisional accounting treatment, important revisions were reflected on the initial allocation amount of the acquisition cost.

As a result, the provisionally calculated amount of goodwill of 42,252 million yen declined 14,321 million yen, to 27,931 million yen due to the fixation of accounting treatment, and it will be amortized equally over 20 years. The decline in goodwill was due to a 1,190 million yen decline in property, plant and equipment and increases in contract-related intangible assets by 19,022 million yen, deferred tax liabilities by 3,315 million yen and other noncurrent liabilities by 195 million yen.

#### I Transactions under common control, etc.

Acquisition of additional shares of subsidiaries

- (1) Summary of business combinations
  - (i) Names of acquired companies and their business line

Names of acquired companies: Periman Pty. Ltd.

Secure Parking Singapore Pte. Ltd.

Secure Parking Corporation Sdn. Bhd.

Business line: Parking business

- (ii) Date of business combinations
  - July 2, 2018 / August 6,2018
- (iii) Legal form of business combinations

Acquisition of shares from non-controlling shareholders

- (iv) Names of acquired companies after business combinations No change
- (v) Matters concerning the overview of other transactions

The percentage of voting rights of additionally acquired shares is 20%, and as a result of these transactions, Periman Pty. Ltd., Secure Parking Singapore Pte. Ltd. and Secure Parking Corporation Sdn. Bhd. became wholly

owned subsidiaries of the Company. The acquisition of these additional shares aims to integrate business know-how in each country and area, including Japan, and realize synergy effects sooner.

(2) Overview of accounting treatment conducted

These transactions are accounted for as transactions with non-controlling shareholders out of transactions under common control, etc. based on the "Accounting Standard for Business Combinations" and the "Guidance on Accounting Standard for Business Combination and Accounting Standard for Business Divestiture."

(3) Matters concerning additional acquisition of shares of subsidiaries of acquired companies

| Type of consideration | Cash | 77 million Australian dollars (6,352 million yen) |
|-----------------------|------|---|
| Cost of acquisition   |      | 77 million Australian dollars (6,352million yen)  |

#### (Segment information)

#### Segment information

1. Overview of reported segments

The business of the Company is categorized into two reported segments by service: the Parking Business in Japan, the Parking Business Overseas and the Mobility Business. Separate financial information is available for each of the reported segments in accordance with the constituent units of the Company and the Group, and the Board of Directors reviews each reported segment regularly to determine the distribution of management resources and to evaluate financial results.

The following is a description of each reported segment:

- (1) Parking Business in Japan: Operations relating to management and operation of parking sites in Japan
- (2) Parking Business Overseas: Operations relating to management and operation of parking sites overseas
- (3) Mobility Business: Automobile-related operations relating to the rent-a-car service, car sharing service, and road assistance service
- 2. Method of calculating net sales, profits or losses, assets, obligations and other flows by segment The accounting treatment for reported segments is generally similar to the descriptions under "important matters for production of the consolidated financial statements." Profits of reported segments are figures based on operating profit. The Company does not allocate assets and liabilities to reported segments.
- 3. Information on sales, profits or losses and other flows by reported segment Consolidated previous fiscal year (from November 1, 2016 to October 31, 2017)

(Unit: million yen)

- (Note) 1. An adjustment of minus 10,082 million yen in segment profit (loss) includes an amortization of goodwill of minus 153 million yen (amortized balance: 232 million yen) and Company-wide expenses of 9,928 million yen. Company-wide expenses are mainly expenses that do not belong to either of the reported segments. Those expenses are relating to the administration division, including the general affairs department.
  - 2. The segment profit of 115 million yen in Parking Business Overseas includes amortization of goodwill of minus 651 million yen (unamortized goodwill: 59,517 million yen). Unamortized goodwill includes a tentatively calculated amount related to the business combination conducted in the fourth quarter of the consolidated fiscal year under review
  - 3. Segment profit (loss) is adjusted in accordance with operating profit in the consolidated profit and loss statement.

#### 4 Matters concerning changes in reporting segments

During the first quarter consolidated accounting period, we acquired 80% of the shares of Secure Parking Pty Ltd which develops parking business in Australia, New Zealand and the UK Secure Parking Singapore Pte. Ltd. which develops parking business in Singapore and Secure Parking Singapore Pte. Ltd. which develops parking business in Malaysia, and by including them in the scope of consolidation, the report segment "parking business overseas". Segment information for the previous consolidated fiscal year, which was disclosed as comparison information for the current consolidated fiscal year, is stated using the classification method after the change.
